

**Free Standing Heaters**  
Straight Line Bender for Bending Plastic

All Free-Standing Heating Trays run on standard 120 volts and have a maximum operating temperature of 800°F. Units can be used with below Listed Power Controls where temperature control is desired.

Our Heating Trays have been exclusively designed to give constant professional bends while working with all types of Thermoplastic materials. They are essentially used for straight line bends or folds and are capable of heating up to 1/2" thick material. All trays come with standard 120 volt pigtail, are ready for operation. Units can be used with Power Controls where temperature control is desired.

**SPECIFICATIONS: U.S. Patent No. 5025137**

Model No.	FS-24	FS-48
Heated Width / Length	1/2" x 24"	1/2" x 48"
Total Length of Tray	35"	59"
Watts / Amps	220/1.8	430/3.6
"A" Dimension	1/2"	1/2"
Price	\$209.00	\$262.00
Element Only ( Each ) 120 Volts	11008 / \$41.25	11007 / \$65.00
